SYSTEMS provides consulting services for:

- Hotels
- Government Facilities
- Resorts
- Industrial Facilities
- Office Buildings
- Custom / Luxury Homes

SYSTEMS provides complete exterior building envelope consulting services such as for roofs, walls, below grade and any and all waterproofing related construction details primarily for commercial and industrial facilities on a **NATIONWIDE BASIS** for over 26 years. Performing consultation services during due diligence for numerous clients purchases nationwide. Consultation support services for new construction as well as forensic analysis for existing facilities. Services include roofing evaluations, surveys, analysis, infrared moisture surveys, cross sectional waterproofing analysis, budgetary forecasting, conceptual design, purchase specification and drawing development, cost estimates, scheduling and monitoring services. Scope of work development provides specifics to the project for contractor competitive bidding, invitations to bid, instructions to bidders and specified bid proposal forms as well as progress reports.
